

A¹

18. (Amended from renumbered claim 19 by Examiner) A computer program
product comprising a computer readable media including program instructions
embodied on said media for implementing the method of claim 12.

Please add the following new claim.

A²

--(new) 20. A method as recited in claim 19, further comprising the step of
running a client program on said client computer, said client program capable of
transferring said input device events to said host computer.--
